

# Longfield Designs Wedding Stationery

## Bespoke & hand-made

Your wedding is one of the most important times of your life. At Longfield Designs we understand that and want to help you give your wedding that extra-special touch, from the moment your guests open their invitations.

We can provide bespoke hand-made wedding stationery including invitations, orders of service, place names and thank you cards. We can tailor our design to your colour scheme and theme, and all our stationery is hand-made in Somerset.

## Beautiful & affordable

It is becoming increasingly popular for couples getting married to print their own invitations and orders of service, but not everyone has the artistic flair to make them look special. That is where Longfield Designs can help, providing beautifully designed and hand-made stationery at an affordable price.

We stick to what we are good at - making pretty stationery - and leave the printing to you, which makes it easier and more affordable for you.

## Friendly service

Organising your wedding can be a wonderfully exciting time, but it can also be a bit stressful too! We work hard to provide a friendly and efficient service, with carefully planned deadlines agreed with you to ensure you receive your stationery when you need it.

Please email or ring us to discuss your requirements and for a free quotation. As all our stationery is hand-made, we can adjust our designs and materials to suit your budget.
